DATE SET FOR THE MEETING OF RATEPAYERS

To Be Held in The Empress
Theatre Monday, Nov. 29—
Council Set as Count of
Revision and Adopts Lists

The regular meeting of the town council was held in the council chamber last Monday evening. Acting Mayor Ireland occupied the chair and the following councillors were present: Oates, Lavelle and Crowe.

The council first sat as a court of revision to adopt the voters' list and on motion of Councillors Lavelle and Crowe the revised list as presented to the council was adopted. There were a few applications for additions and as all were in order they were approved by the court of revision.

The business of the regular meeting was then proceeded with after the reading of the previous meeting's minutes.

The first business arising out of the previous meeting's minutes was in regard to the rental from the Clay Products Company on the spur track. Mr. Bryant, manager of the company, was present and in addressing the council stated it was understood by the agreement that the town was to pay this rental in lieu of concessions granted to the town by the company at the time the track was built. He was made. Councillor Lavelle said he was on the council at the time the bargain was made and he certainly did not understand it that way. He thought such an agreement would be discriminated against other industries, and as the town had no other spur track he thought it would be advisable to let the C. P. R. fulfil their contract in a previous year.

On motion of Councillors Lavelle and Crowe the matter was referred to the finance committee with instructions to investigate and report at the next meeting.

Mr. Keats waited on the council and registered a complaint against the engineer's department because the water in the house he had just moved into had been turned off without giving him any notice. He claimed he was in the house for a week and as the water had been on at that time he had overlooked the matter making the usual deposit. It was on Saturday afternoon when the water was turned off and as he was out in the town hall at the time he called up the engineer and asked if he could get the water turned on that evening. The engineer, Mr. Keats said, refused to turn it on until the deposit was made and as there was no one at the town hall to receive the deposit he (Keats) with his wife and two children, were compelled to remain without water till Monday. This he thought was a serious state of affairs and one that should be brought to the attention of the council. The council took no action in the matter.

Mr. Keats also wanted to know if it was true that Mr. Dunnett was paid \$4.00 a week for looking after the town horse. If it were he thought it would be cheaper to sell the horse and hire one when one was wanted. Acting Mayor Ireland informed him that Mr. Dunnett was getting \$2.00 a week for this work.

A letter was read from the firm which is furnishing the repair for the tank stating that the work is nearly done and also suggesting that the work of replacing the top be done by local men. The matter was left in the hands of the engineer.

On motion of Councillors Lavelle and Oates, Monday, November 29th, was set as the date for the regular annual meeting, same to be held in the Empress theatre at 8 o'clock in the evening.

A letter was read from Acting Chief of Police Caldwell asking for a month's leave of absence, same to commence at the end of the present month. This was referred to the police committee.

A letter was read from Mr. Perry, deputy minister of municipalities, informing the council that since the appointment of the town clerk, the council by the provincial government it will be necessary for the council to submit all tentative bylaws to that commission for their approval.

REVIEW

OUR SLOGAN: An Industrial Metropolis of Industrious People Who Pull Together.

REDCLIFF, ALBERTA, FRIDAY, NOVEMBER 12, 1915

DOONIGLI GLASS PLANT TO START OPERATIONS AT FIRST OF YEAR

Will Employ 100 Men at Start And
Number Will be Increased Before
Spring—Continuous Operations
Are Anticipated

ROLLING MILL TO RUN ALL WINTER.

Received Big Order and Will Employ
From Forty to Fifty Hands All
Winter—Brick and Coal Plant is
Also Busy

In conversation with Mr. George Lydiatt, manager of the Dominion Glass plant here, the Review was informed that it is the intention to start the plant in operation with a full force at the beginning of the coming year.

It is the intention to start at once to get the plant in shape so that everything will be in readiness to commence operations the first week in January. When everything is in readiness for the wheels to start in motion, Mr. Lydiatt informs us that the plant will have a full complement of at least one hundred and ten hands who will have steady employment all through the winter. Already experienced hands are being engaged and a number of the heads of the different departments who were here when the plant closed down are coming back to resume their old positions.

When the plant closed down they had a goodly supply of all the lines they manufacture on hand but at present the time they are pretty well cleaned out, so that a good steady season's work is assured.

It is the intention to run the plant to full capacity and Mr. Lydiatt informs us he is sure that before spring he will have a still larger force added to the staff.

Already a large shipment of the raw materials used in the manufacture of the different articles is on the way to Redcliff.

It will also be good news to our

Alberta Has Sent 20,000 Men to Front

The Alberta has sent 20,000 of her sons to the war, and is already bearing the first stages of the fight for civilization over a thousand casualties, dead and wounded and missing.

Enquiry revealed that the military district has on its books nearly 17,000 officers and men, and that the figures released from Ottawa, saying that the little over 14,000 men had been enlisted was woefully inadequate, doing great injustice to the province.

It is doubtless indeed, with new battalions being formed every two months whether the 20,000 would adequately cover the number of men who have been sent from the shadow of the Rockies when the British, French, Italian, Montenegrin, Belgian, Russian and Serbian recruits are taken into consideration. Besides that the enlistment for the Princess Patricia's already number several hundreds, and the Pioneer company, another 250 from the city of Calgary alone, are not numbers in military records. It can, therefore, be seen at a glance that the Ottawa figures fall far short of doing justice.

An excellent impression has been presented at Ottawa, by the British legation's publication of an official statement asserting that after war had been declared against Bulgaria all offers previously made to that Great Britain and determined to treat her as an enemy.

St. Ambrose To Hold Anniversary Services

The anniversary of the opening of St. Ambrose church will be celebrated on Friday, December 3rd, and continued on Sunday, December 5th, when it is hoped that a special preacher will be present.

The social celebration of the first anniversary will be held St. John's hall on Tuesday, December 7th. In the afternoon the ladies of the W. A. will hold a bazaar which will include a sale of work and articles admirably suited for Christmas presents and a table for afternoon tea.

In the evening there will be a first-class concert with a strong program provided by local talent and some well known performers from Medicine Hat and elsewhere. This will be followed by a big dance with supper and good music. Full particulars of the whole day will be announced later.

"Smithy" Is Now on His Way Back

Herbert Smith, who was one of the Merchants bank staff of Redcliff at the outbreak of the war, and who joined the colors immediately after becoming a member of the Canadian Highlanders, is now on his way back to Canada. It is not known whether he will return to the bank or not. He has been discharged from the service as unfit for further military service. He was one of the victims of the gas. His poisonous gas, which badly affected his lungs, but it is thought that the dry atmosphere of western Canada will improve his health.

"Smithy," as he was familiarly known here, was well liked by those who knew him, and if he should ever return to Redcliff he will undoubtedly receive a royal welcome.

Redcliff Citizen Dies In San Francisco

The Review has just received word from Redcliff in San Francisco, Mass., informing us that his father, F. H. Hayes, died suddenly in San Francisco.

Deceased came to Redcliff to Redcliff about the time the boom started, and resided here till shortly after the Panama exposition opened, when he left for San Francisco to take charge of a exhibit belonging to a large concern firm during the fair.

Deceased, although of a quiet and unassuming disposition, made many staunch friends during his stay in this town, all of whom will regret to learn of his sudden death. He had great faith in the future of this town and as a result built two fine brick houses on Main street to rent.

Congestion Feared At Lake Terminals

One of the great questions, in fact, the only question now talked of in grain circles at Fort William, is how long can the present rush from the west be kept up. Last week the C. P. R. alone unloaded 7,000 cars of grain or an average of 1,137 cars per day.

Two weeks ago there was in store in elevators 692,000 bushels. Yesterday's receipts in elevators had in them 17,258,000 bushels.

It takes no figuring to estimate that the inevitable will be unless more elevators are cleared and this cannot be done unless the owners of wheat and other grains in store clear them.

Loading grain at the rate of over two thousand cars per day and with the unloading of them at the rate of twelve hundred per day at the lake front can bring only one result, a congestion of the terminal.

Says Huns Decline Will Start Soon

Hellier Belle, the foremost military writer in Europe, makes a very logical and reasonable estimate and figures out that the German effectiveness will begin to decline about the beginning of the new year; so, "very little later," says the end of January at the very latest.

"More reasonable estimates reduce the time to the middle of December, while estimates which have very great authority behind them place the turn of affairs in the month of November itself."

RUSSIANS ARE AGAIN ACTIVE IN THE EAST

Desperate Battle Under Way
For Several Weeks And
Russians Claim Success—
Break Enemy's Lines

An acute revival in the situation in the East is being experienced. The Russian army has been active in the Caucasus and in the Crimea. The Russian army has been active in the Caucasus and in the Crimea.

The Russian army has been active in the Caucasus and in the Crimea. The Russian army has been active in the Caucasus and in the Crimea. The Russian army has been active in the Caucasus and in the Crimea.

Mayor Bott Returns From His Trip East

Mayor Bott returned to town yesterday after spending a few weeks in the east on business. He says he is glad to get back to town, and now feels more convinced than ever that with the return to normal conditions Redcliff is assured of a prominent place in the vanguard of progress.

Successful Meeting of "Red Cross Society"

The Red Cross circle held a very enthusiastic meeting on Tuesday afternoon, the 11th inst. The monthly collection books were given out and the ladies will be out on the 15th, as announced last week. Mr. Jackson has kindly offered to take the work in the Hat and bring back fresh supplies, and the circle takes this opportunity to thank him.

Canada Is After Trade With Russia

A vigorous campaign to encourage and develop commerce between Canada and European Russia, is being instituted by the Canadian government. Sir George Foster has decided to open a trade commission's office in Moscow, and Mr. F. J. Starnes, who is now in St. Petersburg, has been named to the important post.

Austrians Sink An Italian Liner

The Italian liner Ancona has been sunk in the Mediterranean by a large submarine flying the Austrian colors. She carried 482 passengers and 60 in the crew. Two hundred and thirty survivors, some of them wounded, have been landed at Bizerta, Tunis. The Ancona was from New York for Naples on October 17. She had on board 1,245 Italian recruits and general cargo. She arrived on October 20 and was sunk by a submarine on November 10th.

BIRTHS.
HAGERMAN—In Redcliff, on Tuesday, November 9th, 1915, to Mr. and Mrs. W. Hagerman, of Edmonton, a son.
WASHBURN—In Redcliff, on Wednesday, November 11th, 1915, to Mr. and Mrs. Washburn, a son.

General News Notes From Various Points

Numerous German officers are arriving in Greece. They do not seem uniformed, but it is found to be mistaken their profession.

Five hundred of the first wintering a few weeks ago to take up rail way construction work in Russia, have arrived safely at their destination.

The British armed merchantman *Thetis* was attacked and sunk in the eastern Mediterranean by two German submarines on Friday last, according to an official statement made by the officials of the press bureau.

The small German cruiser *Ullrich*, has been torpedoed and sunk by a submarine off the Swedish coast, according to an official announcement by the German army headquarters.

That No. 2 Canadian stationary hospital, in charge of Colonel Shillington, is being moved from its quarters at Le Touquet, France, to Serbia, was the most important news in a letter from Major McKelvie Bell.

The printing plant of the London Globe, together with copies of the issues of Friday and Saturday, were seized by the police. The Globe has been very outspoken and reiterated that Kitchener was to resign.

The \$50,000 club to be affiliated with the Toronto and York club, is organized. It is intended that the club, by securing donations, shall contribute at least \$50,000 a month to the patriotic fund.

Twenty men and girls were killed and more than 10 others injured, according to police, in a fire that swept through a four-story wooden structure on North Sixth street, in the Williamsburg section of Brooklyn, N. Y., last Saturday.

The local excess of families in England, France and Germany before the war began was 2,788,378, and it is estimated that after the war there (12 years) will be increased by over 5,000,000.

Two divisions of British troops are on the way from Saloniki to the Bulgarian frontier. More soldiers are entraining to follow the initial force, inasmuch as French troops are already operating about Strumitsa, it is estimated that this is the destination of the British.

A movement to combine all relief societies founded in the United States since the outbreak of the war under the control of the American National Red Cross and to obtain for that organization a permanent endowment of \$100,000,000, was started at a meeting at the home of Mrs. Whitlaw Reid.

The bylaw, submitted to the ratepayers of Edmonton, last Monday, to grant a franchise to the Northern Alberta Gas Development Company, the promoters of which are headed by W. H. McEwen, of Calgary, was carried by a majority of nearly three to one, the vote standing: For, 1,097; against, 2,423.

The German steamer *Cordelia*, 1043 tons, owned at Hamburg and laden with 2,600 tons of coal, has been missing since Sunday, according to a Copenhagen dispatch. It is believed the vessel has been torpedoed by a British submarine.

A bomb which eye-witnesses said was dropped from the roof of a six-story tenement at 22 Lafayette street, New York, exploded in the gutter almost in front of the Italian consulate last Saturday. Italian reservists in front of the consulate were thrown to the street but none were seriously hurt.

Two German aeroplanes dropped two bombs and badly damaged a British patrol ship, supposed to be the *Cutterm*, off the North Hinder lighthouse, Saturday, according to official announcement given out last Monday. Flares were seen issuing from the vessel later and it is believed she turned to the water's edge.

American warships stationed in gulf waters have been ordered to watch the steamship *Zelandia*, persistently reported to be making preparations to become a German privateer. The *Zelandia* recently sailed from Pensacola with a German crew and is now in a Mexican port.

Six German vessels have been wrecked on the Swedish coast in the last three days while trying to escape British submarines, according to dispatches received in London. Twenty-two members of the crew of the German steamer *Clara* lost their lives recently when that vessel went to pieces on the rocks off the Swedish coast.

Allies Continue Advance in Serbia

Reports from the Serbian front represent the situation as satisfactory for the allies, says a Havas News Agency dispatch from Athens. The French have reached Gradiška, on the railroad from Krievolat to Velea. A Bulgarian attack against Krievolat is reported to have been repulsed. On the Anglo-French front north of Guevgelits the advance of the allies continues, and the Bulgarians now occupy only the village of Dymand in Serbian territory.

Thus far the plans of the central powers in the Balkans have worked like well-oiled machinery, but the latest news from Macedonia indicates the initiative is not to be left entirely to the invaders much longer. Reports come by way of Paris that the Anglo-French forces are making their presence felt against the Bulgarians. The entente allies claim their operations are proceeding along the whole front with success, notwithstanding the handicap of operating in a difficult country. It is reported also that the Serbians holding part of the Macedonian front have broken the Bulgarian line after inflicting heavy losses on them.

Tribute to Red-Cross

By Prisoner of War

A newspaper correspondent who travelled from Holland to England with a detachment of exchange prisoners of war has recorded some interesting facts as a result of his conversation with these men.

The wounded prisoners who are of course all unaccompanied by women, otherwise they would not be exchanged, arrive in Holland on a German Red-Cross train. During their brief stay, prior to their transshipment to England, they receive many attentions from the Dutch Red-Cross. "If the people at home," says the writer, "could have seen what I saw in those few hours, Red-Cross organizations and prisoners' funds would have to refuse money instead of appeal for it."

An Athens dispatch to the Havas Agency, dated November 3 says that an official statement issued by the Serbian legation estimates the Bulgarian losses in killed and wounded up to the present at 100,000.

SUFFRAGETTES TO BRRAK

TRUCE WITH GOVERNMENT
Suffragettes, the group controlled by Mrs. Pankhurst, have decided to break the truce which has lasted since the beginning of the war and again attack the government, instead of supporting it. At a meeting Thursday evening in London pavilion Mrs. Pankhurst said they came to this decision last week and then only on account of the general ineptitude of the cabinet, especially regarding Serbia, which they pledged themselves to aid.

ITALIAN OIL STEAMER

RUINS OFF TEXAS COAST.
An Italian steamship, loaded with case oil from Port Arthur, Texas, for Italian ports, is on fire at sea, 65 miles east of Sabine bar and has been abandoned, according to wireless advice received in New York last Tuesday from the steamer *Gulfstream* which is standing by. The crew of the burning vessel has been taken off by the tug *Russell*. The fire was reported in number three hold and the name of the ship was not given.

The minister of militia says that no intoxicating liquors will be sold in any of the Canadian cantons.
